## Blauburgunder

South Tyrolean Blauburgunder „Jansen“ DOC

### WINE GROWING AREA

The vineyard is situated in the South Tyrolean Lowlands close to the village of Montan. The grapes are grown over Guyot-system trellises at an altitude of 450 - 600 metres. The gravelly clay soil gives this wine its quintessential minerality.

### HARVEST AND YIELD

The grapes for this Pinot Noir reach their ideal stage of ripeness in early to mid September when they are picked by hand to produce a yield of 65 hectolitres of wine per hectare.

### VINIFICATION

After the traditional maceration of the Pinot Noir grapes in open fermentation tanks, the wine is aged in large wooden barrels and small barriques.

### WINE DESCRIPTION

This Blauburgunder is a classic Pinot (Burgundy) with the typical hints of raspberry in the nose, garnet red in colour, elegant and structured on the palate.

### RECCOMENDATION

This Pinot is a great accompaniment to grilled red meat and mature cheeses.
